Our business, your pet's comfort.

We are a premier European manufacturer, distributor, and exporter of quality pet supplies. Our product line includes pet bowls, retractable leashes, portable terrariums, aquatic supplies, bird feeders, litter boxes, and pet toys.

Eugeniusz and Teresa Solski founded our company over 35 years ago in Poland, and it has remained family owned and operated ever since. By 1974, we were selling aquatic supplies, but because of the harsh economic climate imposed by Communism, raw materials were scarce. After 1989, though, a more capitalist climate allowed us to find better quality materials and to begin exporting products.

Throughout times of political upheaval, pets provided a bit of solace, and Teresa bought a pet shop to cater to this need. As the business expanded, customer feedback helped us to improve our existing products and to create new ones. Our current product line focuses on cat and dog supplies. By 2009, our inventory had more than doubled so as to accommodate increased orders.

Sum-Plast is a family love affair; we are passionate about pets and want others to share that passion.

Sum-Plast's mission is to provide consumers with quality pet products that are convenient, safe, durable, and comfortable. We take pride in making customers our highest priority by ensuring that we always meet the changing needs of pet ownership.

Our state-of-the-art plastic injection molding machines create durable products that are safe, functional, and comfortable. We produce washable pet bowls that are slip resistant and come in many sizes. Some styles prevent wet ears and others save space by fitting snugly into corners. We design our products to meet the needs of the clients.

In 2009, our product line expanded to include easy-to-handle-and-hold pet toys. We provide quality rubber rings, balls, dumbbells, and flying discs that are vanilla scented for pet play. Our long-lasting rubber remains supple in extreme temperatures so pets enjoy playing year-round. More toys are coming soon.

Our newest retractable leash, the Quest, is designed with quality materials for durability, ease of use, and comfort.

We offer a low-cost logo and OEM service, efficiently done in-house.

Furthermore, we offer progressive discounts for larger orders, but have no minimum requirement. Customers appreciate the attention we pay to quality control, and this results in ever-increasing repeat-business.

We utilize new technology and techniques to create new products, so customers have the sturdiest supplies created from top-quality plastic. Our expanding product lines are helping us to become the best-known supplier in Europe. As Sum-Plast's market-share grows, we are providing more website information, updated product descriptions, and increased staff to keep up with growing demand.

We are actively seeking distributors, wholesalers, and suppliers worldwide, and welcome all inquiries. We believe in quality products, excellent customer service, and prompt delivery to ensure a long relationship with happy pets and their owners. Our experienced staff provides personalized attention to meet the unique needs of each client.
